- - - - WORK EXPERIENCE - - - -

2006-present GRANDPACE Kft., Veszprém

I make customized camera measure systems in machine lines of car factories. I design and I develop the software myself using VisualStudio C++, Intel x64, SIMD/SSE instr., DirectX/Shader, DirectShow/camera, TCP/IP for communication. I call it GP_Rules. GP_Rules is testing parts for more than 14 car models. They have been operating 24/7 for years. I and GP_Rules have successfully co-worked in three R&D projects.

- laser interference image processing
- integration of stereo vision for robot control
- mapping ice damage on car bodies

2005 Mithis Entertainment, Budapest

Around 2003, I started developing a game of my own design. I was looking for two co-workers. Norbert Biri and Tamás Kézdi joined our small team called „Grandpace”. The prototype was soon completed. Mithis Entertainment took care of it. This became "Creature Conflict: The Clan Wars".

2002-2004 FlyOrDie.com, Budapest

I had designed games, graphics and animations since about 2003. I used LightWave3D. We also made a billiard and chess program for EuroSport.

2000-2002 KnowledgeArt Kft., Balatonfüred

I make illustrations of multimedia CDs, publications and schoolbooks published in Germany. Primarily hand drawn. I used all Adobe products and 3DStudioMAX.

1998-2000 Varga Studio, Budapest

I drew key frames of scenes for cartoon series.

- WarnerBros: Baby Blues
- Grand Slam Children's: Percy the Park Keeper

- - - - EDUCATION - - - -
